

## **We Belong Song**

(Song created by Chris Bartlett, Anthony Butler, and Derreck Lyttle with all other Toronto Conference Youth at annual meeting 2011)

**I see you standing  
around in a strange situation  
That needs to be turned around  
Now tell us, what can we do?**

**I've walked through every day just wondering  
About everything I'd have to say  
To get an answer from you.**

**Chorus:**

**Now we need some guidance,  
Something to remind us  
Of what we've been called to this earth for.  
So just give us Jesus  
And we swear that we will  
Go out and change the world with him**

**Now watch our generation begin  
Bridge: (Four repeats of guitar riff)**

**Every once in a while we see so many people  
Whose faces never held a smile  
Held right down like a child's broken dreams  
Knowing that as day's go on, our time runs out to stand as one  
That transformation that we desperately need**

**Chorus (Slightly remastered)**  
**Now we need a song**  
**Something to move us along**  
**A rousing cry to truth**  
**So just give us Jesus**  
**And we will give our all**  
**We will give everything**  
**So watch our generation begin**

**Bridge: (Extended)**

**Our hopes**  
**Our dreams**  
**The change we need**  
**Will come standing before our good Lord's feet**  
**One chance to stand**  
**United strong**  
**Our Generation**  
**WE BELONG**
